

FLEXIFELT WARRANTY

Linea Ceiling and Wall Systems offers a two (2) year limited warranty effective from the date of installation, protecting against undue deterioration specifically attributable to faulty materials and manufacturing workmanship.

Installation Environment:

Our products are intended for indoor use in standard commercial, residential, and institutional environments. Usage in areas significantly deviating from these conditions may lead to performance issues beyond the scope of this warranty.

This warranty does not cover consequences arising from faulty or improper installation or inadequate maintenance and is contingent upon the following conditions:

1. Installation must align with the most current and relevant Installation Guide.
2. A comprehensive maintenance program must be agreed upon and executed throughout the product's lifespan. Please refer to the applicable Care and Maintenance Guide.
3. In the event of product failure within the warranty period, Linea Ceilings and Wall Systems will rectify the affected area by either repair or (at its discretion) replacement of the defective part with an equal-quality Linea product, or alternatively cover the cost of replacing the defective part.
4. Should replacement of any Linea products be necessary, Linea will not be liable for relocating electrical wiring or outlets, or for expenses associated with furniture, partitions, or temporary walls located in or around the installation area.
5. Linea necessitates the original sales receipt or other documentation as proof of warranty coverage or any other fixtures, fittings, plant, or equipment.

Exclusions from warranty coverage include:

1. Moisture, dust, stains, or other contaminants resulting from daily use.
2. Any condition arising from usage not intended for the product.
3. Variations in shading due to direct sunlight exposure.
4. Damage such as tears, burns, pulls, cuts, and other impairments resulting from improper maintenance and installation practices.
