#### DISCLAIMER

Wood is 100% natural; color, texture & grain will vary within a general range from one piece to the next. Lighting exposure can also alter a sample's appearance over time. Some species and grades will vary more than others. Please inquire for techniques to control this normal distribution if desired. Please note that colors may appear differently in photographs due to lighting and screen resolution variations. We strongly recommend referring to our physical samples for the most accurate color representation.
